

PRESTIG

REAL PRESTIGE

PRESTG

PERFECTING THE DETAILS
OF NATURAL WOOD AND FINE STONES.

The premium flooring PRESTG features LX Hausys' unrivaled technology and design philosophy by reproducing and maintaining the beauty of the original texture and look of high quality woods and stones to give customers a valued experience.

MORE BEAUTIFUL THAN NATURE

PRESTG interweaves natural beauty with cutting edge design technology to create beautiful and natural environments for your space. Unlimited experiences are created according to the function intent of your business space.

TIMELESS DURABILITY

PRESTG is constructed from LX's state of the art technology which preserves the everlasting beauty of the product and improves durability.

CONVENIENT FLOORING PRESTG CLICK

By utilizing LX's Rigid Core technology and sophisticated processing skills, PRESTG Click provides ease and comfort with installation that requires no adhesive.

STRENGTH _ 01

MORE BEAUTIFUL THAN NATURE PRESTG

LX Hausys' exclusive continuous embossing technique enables the realistic expression of unique textures and patterns found in woods and stones. Diverse color variations and the detailed reality of beauty is expressed through our "big size" design which is twice as large as conventional LVT flooring.

CONTINUOUS EMBOSSED IN REGISTER "C-EIR"

The authentic texture of wood and ceramic materials are generated by applying LX Hausys' continuous embossed in register technique, and through LX's random dye-cut system, diverse patterns and rich textures are beautifully expressed.

C-EIR : Continuous Embossed in Register

A technique that realistically expresses the texture of natural materials by matching the prints and surface embossing continuously and reducing repetitiveness.

STRENGTH _ 01

MORE BEAUTIFUL THAN NATURE PRESTG

LX Hausys' exclusive continuous embossing technique enables the realistic expression of unique textures and patterns found in woods and stones. Diverse color variations and the detailed reality of beauty is expressed through our "big size" design which is twice as large as conventional LVT flooring.

COLOR VARIATION

Unlike the simple colors of conventional LVT flooring, PRESTG applies the diversity of color in natural materials to create a more luxurious and beautiful space.

Conventional deco tile

PRESTG

STRENGTH _ 01

MORE BEAUTIFUL THAN NATURE PRESTG

LX Hausys' exclusive continuous embossing technique enables the realistic expression of unique textures and patterns found in woods and stones. Diverse color variations and the detailed reality of beauty is expressed through our "big size" design which is twice as large as conventional LVT flooring.

BIG SIZE DESIGN

By doubling the pattern size of conventional flooring, PRESTG is able to express large, beautiful wood visuals.

Conventional deco tile : 3.0mm(T) × 180mm(W) × 920mm(L)

Approx.
2 times UP

PRESTG WOOD : 5.0mm(T) × 228.6mm(W) × 1523mm(L)

STRENGTH _ 01

MORE BEAUTIFUL THAN NATURE PRESTG

LX Hausys' exclusive continuous embossing technique enables the realistic expression of unique textures and patterns found in woods and stones. Diverse color variations and the detailed reality of beauty is expressed through our "big size" design which is twice as large as conventional LVT flooring.

HIGH-RESOLUTION REALITY IMAGE

Free from the limitations of conventional printing methods, high-resolution photo quality printing is applied to elaborately express the reality of the material.

Conventional product

PRESTG (High-resolution design)

STRENGTH_02

TIMELESS DURABILITY PRESTG

Direct installation over existing flooring minimizes cost and time; in addition, the natural beauty of our product is prolonged through our unique Transfer Guard technology. Our high-strength surface coating improves the prevention of scratches to retain the value of any space.

TRANSFER GUARD (PREVENTS FLOOR TRANSFER)

Our transfer guard technology prevents the visual transferring of scrape marks and floor curling that can occur after installation.

[CASTOR CHAIR TEST]
ISO 4918

90kg Castor chair test performed to check for flooring breaks and transfers.

Conventional deco tile : Tested for glue marks and transfer after rotating 3000 times
※ Tested at LX Hausys Research Center

PRESTG : No transfer after rotating tests of 25,000 times

STRENGTH_02

TIMELESS DURABILITY PRESTG

Direct installation over existing flooring minimizes cost and time; in addition, the natural beauty of our product is prolonged through our unique Transfer Guard technology. Our high-strength surface coating improves the prevention of scratches to retain the value of any space.

SMART INSTALLATION

One-Day

PRESTG can be fitted directly over existing flooring which shortens the installation period to one day.

Mix & Match

Mixed installation with various materials, including carpet tiles, is possible due to the elevated thickness of this product.

- Uneven floors will be installed after a self-leveling procedure
- Gaps and breaks in the existing flooring requires filling/ repairing
- Can only be installed over decotiles and mineral flooring that is fixed to the subfloor
- Installation time can vary according to environment and space

One-Day installation

Mix & Match installation

STRENGTH_02

TIMELESS DURABILITY PRESTG

Direct installation over existing flooring minimizes cost and time; in addition, the natural beauty of our product is prolonged through our unique Transfer Guard technology. Our high-strength surface coating improves the prevention of scratches to retain the value of any space.

STONE SHIELD (HIGH-STRENGTH SURFACE COATING)

Dual coating of high density finishing containing stone particles that create an exceptional anti-scratch performance.

[MARTINDALE TEST]
EN16094 : 2012

Tested with 320 rotations on the product with a strength of 4N with a scratch pad (scotch Brite Fleece SB7440)

Conventional deco tile : B5

PRESTG : B1-2

B1 = No scratches / B2 = Almost no scratches / B3 = Moderate
B4 = Many scratches / B5 = Complex scratches in every direction.
※ Tested at LX Hausys Research Center

STRENGTH _ 03

CONVENIENT FLOORING PRESTG Gluedown

5G Click method shortens the installation time and strengthens the coherence.
The amazing technology of LX Hausys reduces noise and improves stability to optimize walking safety.

STRUCTURE / SPEC

PRESTG GLUEDOWN _ STONE / WOOD

- High-strength surface coating (Stone Shield)
- High-durability embossing transparent layer (C-EIR Wear Layer)
- High-resolution design
- Transfer prevention (Transfer Guard)
- Natural stone composite layer (Stone Polymer Composite)
- Transfer prevention / Balance layer (Transfer Guard)

Pattern	Classification	Specification	Packing
STONE VISUAL	PTS	5(T) X 600(W) X 600(L) mm	5pcs/Box (1.80m ²)

STRENGTH _ 03

CONVENIENT FLOORING PRESTG CLICK

5G Click method shortens the installation time and strengthens the coherence. The amazing technology of LX Hausys reduces noise and improves stability to optimize walking safety.

PRESTG Click Feature

No transfer of floor curves with Rigid Core Board layer.

Excellent stability due to foam layer.

Lightweight impact sounds reduced by 19dB. (ISO 717-2:2013, LX Hausys Tested)

Shortened installation time and maximized coherence by applying Valinge 5G Click structure.

Our click structure allows for a floating floor installation where flooring is installed over the existing floor and can be restored to the original state when removed.

No deformation from water.
